

Dear Colleagues,

On the occasion of the current **Thymic Cancer Awareness Month (May)**, the ESP Thymic and Mediastinal Working Group would like to invite pathologists to a *Bring your case!* meeting organized by our Working Group.

The meeting will be held on the Zoom platform on:

Wednesday, May 11 at 16:00 CEST

Link to the meeting:

<https://us06web.zoom.us/j/87318982109?pwd=SU1qbldON1pWQnJtalNndmtNSWIJdz09>

At the meeting, virtual microscopic slides of interesting or difficult thymic/mediastinal tumors that we encountered in our routine work will be presented and discussed.

Our meeting is a unique opportunity to learn something new about these rare diseases.

We invite you to discuss and/or present your case!

Guidelines for presenters - please, prepare:

- A **short presentation** (e.g., in PPT) containing: age and sex of patient, clinical history (as completed as possible), radiological description (if possible), your suggestions of differential diagnosis
- Microscopic slides - **scanned virtual slides or live microscopic image transmission are recommended**, however, if you don't have such options, photo images of high resolution are also acceptable: HE + IHC - number and selection of slides depend on the presenter

Presenters will show their cases through screen-sharing.

For organisational reasons, please, **let us know until May 09**, whether you will be presenting a case by sending an email to: m.szolkowska@gmail.com ; j.vonderthusen@erasmusmc.nl
