

ESP Lung EQA Scheme 2022 - Subschemes Open for Registration

The ESP Lung EQA Scheme in 2022 will be offered as a cooperation between the European Society of Pathology (ESP) Foundation and the German based Quality Assurance Initiative in Pathology (QuIP GmbH).

We are pleased to announce the registration for the ESP Lung EQA Scheme 2022 ([Program](#)). The registration and test periods as well as prices are listed in the table below. Click [here](#) to register.

Subscheme	Registration Period	Test Period	Price
NSCLC ALK Fusions (ISH) including a Digital Readout Test (FISH)	02.05 – 10.06.2022	19.09. – 30.09.2022	€450
NSCLC ALK (IHC)	02.05 – 10.06.2022	19.09. – 30.09.2022	€400
NSCLC ROS1 Fusions (ISH) including a Digital Readout Test (FISH)	02.05 – 10.06.2022	19.09. – 30.09.2022	€450
NSCLC ROS1 (IHC)	02.05 – 10.06.2022	19.09. – 30.09.2022	€400
NSCLC Mutations (molecular pathology): EGFR (mandatory), KRAS (optional), BRAF (optional)	02.05 – 10.06.2022	19.09. – 30.09.2022	€600
NSCLC Fusions (molecular pathology): ALK (optional), ROS1 (optional), RET (optional)	TBA	TBA	TBA

Registration for the molecular pathology subscheme, Fusions NSCLC, is yet to be determined. All updates to the ESP Lung EQA Scheme 2022 program and registration will be announced on the homepages/newsletters of both [ESP](#) and [QuIP GmbH](#).

Participation in the ESP Lung EQA Scheme requires a user account on the QuIP website, which is explained in the [QuIP FAQ](#).
