Belgrade, Serbia

With collaboration of :

Department of Pathology,
Belgrade Medical School

and

Serbian Association for Pathology
(Srpsko Udruženje za Patologiju)

and

Serbian Scientific Society

Welcome Message

Belgrade, February, 10, 2020

Dear Colleagues,

It is a great pleasure for me to welcome you for the twelve pathology Course in Belgrade, a new „EScoP Belgrade 2020“.

As usual model of EScoP Courses, this year it's featuring:

"Update in Urinary System and Male Genital Tract Pathology"

I think, this will make much better promotion and influence of pathology in Serbia, and in neighboring countries too, like in previous years, then any other way of pathology presence.

Like always before, we are sure that the idea of organizing educational Courses in South-East / West Balkan, in Belgrade, as a Branch of EScoP Courses, is of great importance, mainly for our residents and young pathologists, but for our dear clinical colleagues too.

The participation of distinguished tutors, their experience and knowledge, and our permanent commitment to improve the level of pathology in Serbia, but also in surrounding countries, has allowed us to realize these Courses.

Many thanks to ESP and all the tutors for the last 12 years.

Finally, I wish you a fruitful Course, and an enjoyable stay in Belgrade,

*Prof. dr Jovan Lole Vasiljević, FESC, FRCPath
Director of EScoP Belgrade Courses*

Update in Urinary System and Male Genital Tract Pathology
