

OECE ONCOLOGY DAYS 2016

OECE Pathology Day

Clinical Research and Applied Oncology: an integrated and indissoluble process

15th June 2016 – Sofitel Brussels Le Louise Room Methamorphose

www.oeci.eu/ReadNews.aspx?Id_News=87

RATIONALE: *The rationale of this meeting is based on some goals: 1. Avoiding irreproducibility of clinical research. 2. Accelerating biomarker validation to give to Oncology Excellence Centres more opportunities to have better prognosis and treatment for patients. 3. Improving the use clinical tissues on the European level. 4. Pointing out that today clinical research is completely integrated with practical medical application.*

Accreditation of Comprehensive Cancer Centres by OECE, improvement of the biobanking organization in Europe for Archive Tissues by the Biobanking European Infrastructures (BBMRI-ERIC), standardization of analysis methods by the Working Groups of the European Society of Pathology (ESP), improvement of preanalytical conditions of tissues by CEN, and handling of tumour heterogeneity are all activities that have been developed in Europe in the past years to reach these goals.

PROGRAMME

9.00-9.30 – INTRODUCTION: COLLABORATION BETWEEN PATHOLOGISTS AND ONCOLOGISTS

D. de Valeriola (Brussels) and P. Bedossa (Paris)

9.30-11.00 – CLINICAL RESEARCH AND APPLIED ONCOLOGY

Chairs: P. Bedossa (Paris) and G. Stanta (Trieste)

-9.30-10.00: Clinical Research and Oncology: An Introduction - G. Stanta (Trieste)

-10.00-10.30: A BBMRI Model for Clinical Research - K. Zatloukal (Graz)

-10.30-11.00: Coffee Break

-11.00-11.30: Applied Research Models in Clinical Settings - M. Dietel (Berlin)

-11.30-12.00: Research on Clinical Tissues and Industry - D. Henderson (Berlin)

12.00-15.30 – CLINICAL RESEARCH: INTERACTION BETWEEN RESEARCHERS, PATHOLOGISTS AND ONCOLOGISTS

Chairs: X. Matias-Guiu (Lleida) and P. Laurent-Puig (Paris)

-12.00-12.30: The importance of clinical verification and validation for basic research, the example of HERCULES project on ovary cancer - S. Hautaniemi (Helsinki)

12.30-12.40: Short Presentation of the activities of the on-line journal “ecancer”

12.40-14.00 – Lunch

-14.00-14.30: Clinical Research Development in CRC - P. Laurent-Puig (Paris)

-14.30-15.00: Clinical Research in Breast Cancer - P. Aftimos (Brussels)

-15.00-15.30: Clinical Research in Gynecological Cancer - X. Matias-Guiu (Lleida)

15.30-16.00 – Coffee Break

16.00-18.00 – CLINICAL RESEARCH ETHICS

Chairs: M. Lavitrano (Milan) and K. Apostolidis (Brussels) -16.00-16.30: The Central Position of the Patient - K. Apostolidis

(Brussels) -16.30-17.00: Tissues and Ethics - M. Lavitrano (Milan) -17.00-17.30: New Ethical Challenges for Clinical

Research - G. Tognoni (Milan) -17.30-18.00: Privacy and Data Protection Regulation, implication for Clinical and

Translational Research - G. Chassang (Toulouse)

18.00-18.45 – GENERAL DISCUSSION
