

Memory of activities in 2014 ESP WG on Uro pathology

Members of ESP WG have participated in relevant international consultations aimed to improved Uro pathology practice across Europe and the USA. This includes the consultation of Renal Neoplasia, Best practice in immunohistochemistry, ICCR of Renal tumors, and preparatory activities of the international consultation on Testis Pathology to be held early 2015.

The ESP WG has organized in conjunction with the Turkish Society of Pathology the 1st update course of Uro pathology in Ankara, Turkey in 2014. There were 150 participants, half of them locals, and the rest from neighboring countries. The score received from participants in terms of practical utility has been high.

The 2nd update course of Uro pathology is expected for the next year 2015 in Milan, Italy.

Members of the ESP WG will participate in several aspects of the WHO blue book of Genitourinary Organs along the rest of 2014 and early 2015.

A discussion has been open along members of the ESP WG on the fact of having more active participation on discussions related to the practice of urologic pathology across Europe. A number of topics related to reporting pathologic activities have been identified and will be considered during the rest of the year with main discussion at time of London meeting.
